PROFESSIONAL SUMMARY

Cybersecurity-focused Information Technology student at Monash University with hands-on experience in programming, networking, and secure system concepts. Strong foundation in Python, Java, and web technologies with academic exposure to penetration testing and network security. Seeking internship or graduate opportunities across cybersecurity, software development, or general IT roles.

EDUCATION

Bachelor of Information Technology (Major: Cybersecurity)

Monash University | 2023 – Present

- Coursework includes: Cybersecurity fundamentals, Penetration Testing, Networking, Secure Software Development, Database Systems
- Developed understanding of system vulnerabilities, network protocols, and security principles

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, HTML/CSS, C (basic)
- **Web Development:** Responsive design, front-end development, structured multi-page applications
- **Cybersecurity & Networking:** Penetration testing fundamentals, network protocols, vulnerability awareness, secure coding concepts
- **Tools:** Git, Version Control, VS Code, basic database handling
- **Core Skills:** Problem solving, debugging, analytical thinking, teamwork

PROJECTS

E-commerce Website (University Project) (Project link: <https://u25s2207.iedev.org/>)

- Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript
- Implemented structured navigation, product listings, and interactive components
- Applied input validation and secure development considerations
- Designed responsive layouts compatible across desktop and mobile devices
- Managed version control and iterative improvements

Python Automation Scripts

- Developed automation scripts for file organisation and data handling
- Applied conditional logic and structured problem-solving techniques
- Improved workflow efficiency through scripting

WORK EXPERIENCE

Crew Member – McDonald's, Braeside VIC

Jan 2023 – Present

- Worked in high-pressure, team-based operational environments
- Followed structured procedures and quality standards
- Handled transactions accurately under time constraints
- Demonstrated reliability, strong attendance, and adaptability
